**IN THE SPECIFICATION**

Please cancel the entire specification of the subject U.S. patent application, as filed, including the List of Reference Symbols, as set forth in the verified translation of PCT/EP2005/051161, in favor of the concurrently submitted Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to related applications and of suitable section headings, the deletion of the List of Reference Symbols and of references to the claims; the correction of minor errors in grammar, phrasing and punctuation, and a general revision of the verified translation, to place the Substitute Specification more in a form in accordance with U.S. practice. These various changes and corrections do not constitute any new matter. A marked-up copy of the verified translation, showing the changes made thereto, to arrive at the Substitute Specification, is submitted for the Examiner's consideration.
